Washington DC 20500

President trump\*:

Re: Australian Health Care

You told the Australian President that they had better health care than the USA had.  
Australia has universal healthcare - can we have that here in the US?

You're working on healthcare now; why don't you just snap your fingers and tell Ryan  
you want universal health care - I'm sure he'll go along. Do something good for America  
rather than destroy it.

[\*Russia is coming.]
