President trump*:

Re: Withdrawal from Paris Climate Accord

How low-information and uninformed can you go? Your decision to withdraw from the Paris Climate Accord illustrates how ignorant, short-sighted and pathetic you are.

The facts are that alternative-energy jobs outnumber coal jobs by about 10 to 1. Yet you're taking us back to burning coal and tar sands. How medieval. We were leading the war in developing the clean technologies to mitigate climate change - but you threw that sector's jobs under the bus. And decided to drive a horse-drawn wagon with a buggy whip. How inspiring.

You don't want the world to laugh at us. Well, they are - because of you. A living joke, you are.

You love to hate President Obama - and the world. You have no sense of cooperation or shared interest. With you, it's only about money, money and money. You have no compassion or understanding of how to work together with others to *collectively* solve a problem. You say you're smart - but you're an imbecile, your head is so buried in the sand you've become estranged from reality.

Climate change is real. Maybe you'll believe it when your cherished Mar Lago is flooded.

You're a loser, trumpie, big-league. Pathetic hater. And you're supposed to be a leader. You're an ignorant fool, the emperor wearing no clothes. Good riddance.

I have better vision than you long-term - and I'm going blind.

[*Russia is coming.]
