President Trump:

Re: TPP

Withdrawing from TPP was an egregious mistake. All your “knowledge” is limited to reading a balance sheet and whether you make a profit. This is not how international agreements work.

Now, the USA is withdrawing from Asia, ceding leadership to China. Asia is the fastest growing economy in the world - and the USA just withdrew.

Maybe you have some grand vision to sew shirts and pants in the US but you're too black and white - you have NO nuance. Cheap labor jobs are not coming back to the US shores because your 'deplorables' want cheap anything. Short-term, next quarter financial rationale. Sad.
