Re: ButlerGate

You fired your butler, Mr Gaines, for bringing you a taco with tofu in it. Are you for real? He didn't even make it; he just delivered it.

This gentlemen - he is one and you are not - has served in the WH honorably since President Eisenhower.

You are so insensitive without a humane instinct in your soul. Disgusting. Sad. Pathetic.

Why don't you fire Flynn, who violated the Logan Act and discussed sanctions while President Obama was still in office. Or fire your favorite skirt, KellyAnne Conway, who was violated US ethics laws by touting your daughter's clothing brand.

What a sad person you are. Disgraceful. Make America great again - and resign.
