President trump*:

Re: Firing Comey

Firing FBI Director Comey will not stop the investigation into your collusion with Russia during your 2016 campaign. What are you scared of?

Sessions recused himself from all things Russia and Clinton. So what is he doing sticking his nose into Comey's firing?

Sick. Pathetic (we have a president like you). Disgraceful (we have a disreputable person like you as President).

[*Russia is coming.]
