Re: Don Jr is Hardly 'Transparent'

With the revelations that your son, Don Jr, met with a lawyer for the Russian government to 'get some dirt' on Secretary Clinton, you stated that you admired your son for his 'transparency'.

Transparency? Hardly. He has lied repeatedly (like you), covered up his actions and failed to report them (he only released the emails when the NYT was about to release them) and even accused the Democrats of this types of actions, calling them despicable. And he'd already met with the Russians.!

Hardly transparent. He's so full of s**t that you can't see through him. What a disgraceful person.
Pathetic. Liar.

Fruit doesn't fall far from the tree...so we know where he got his integrity and morals. You have none, he doesn't either.

You've disgraced the Office of the Presidency. Take a walk, trump*.

I guess you can't call this "Russer thing" fake news anymore. You're such a hypocrite that you probably will.

[*Russia is coming.]
