Re: Golf

You said so many times that you'd never leave the WH to play golf, but, well, you do a lot. Way more than former Presidents.

You said you had plenty of work to do - and boy do you do! Russia, Syrian bombing, North Korea, your Mexican wall, failed health-care bill, tax form ... you've got a full plate. Yet there you go, off to play another round of golf.

Don't you like the WH?

[Russia is coming.]
