1600 Pennsylvania Ave
Washington DC 20500

President trump*:

Re: Climate Change is a Hoax - and the Paris Climate Accord

You've got it wrong, trump. YOU are the hoax. How can you ignore the impact of climate change - it's real.

You could have been creative and forward thinking - and create even more support for the fast-growing job sector, alternative energy (wind, solar, batteries, thermal), yet to save a base of deplorables, you ceded technological expertise and leadership to the Chinese.

Alternative energy is a long-term growth industry, yet you want to support a dinosaur industry of fossil fuels - including [feed those junkies] shipping the Canadian tar sands oil.

And this for 50,000 coal jobs?

You are a deplorable working for the deplorables. How appropriate. How pathetic. You're a loser. So short-sighted. And bigoted.

[*Russia is coming.]
