Speaker Ryan:

Re: House Intelligence Committee Integrity Compromised

Representative Nunez, by dashing off to Daddy with his new and private allegations - and not sharing them with his own Committee, has compromised the integrity of that committee. Who does he answer to? trump* or his committee?

The hacking of the 2016 American election by Russia is an important issue, too important to be left in the hands of a partisan committee. We also have growing evidence that trump* and his cohorts were coordinating the campaign with Russian 'actions'. Bad. Serious.

America must have an INDEPENDENT, NON-PARTISAN Commission (a la 9/11). Call for one rather than continue with the farce, partisan event hosted by Nunez.

Russia is coming.
