Re: Keystone Pipeline

You have made a damaging, short-sighted decision in allowing the Keystone Pipeline to proceed. This is like giving a needle to a junkie. The Canadian tar sands oil is the dirtiest oil in the world; why use it?

Climate change is not a hoax, trump*. Stand up and be counted; don't be vindictive and simply throw out American efforts to thwart climate change; it's happening. Not a Chinese hoax. Don't be ignorant.

[Russia is coming.]
