Re: Mar-Lago & Golf

Your way too numerous trips to the 'southern' White House are costing the US taxpayers money, just to satisfy your own inadequate personality. You cannot handle the White House and are alone.

Well, get over it. And do something responsible. Or should we fire you, like you did on the Apprentice?

And re the golf, you're such a hypocrite (once again) having accused President Obama of playing too much golf. You've eclipsed him by far - and you haven't been in office three months!

Every time you fly to the 'southern' White House costs the US taxpayers \$3MM, not including local costs for security. That could buy maybe 2MM lunches for Meals on Wheels. Just think about it, trump\*: one of your flights of fantasy could feed 2MM citizens of this country.

Stay home in the White House.
