Re: Special Prosecutor

So you think the Russian probe is 'fake news'. I'm all for Special Prosecutor Mueller finding out this answer, as well as:

1. Your collusion with Russia during the 2016 campaign
2. Your business dealing with Russia
3. Flynn's collusion with Kisliyak the day President Obama imposed new sanctions on Russia re their hacking of the election
4. Money laundering via real estate transactions with the Trump organization
5. The firing of Jim Comey and your attempt to thwart the investigation
6. The actions of Erik Prince in the Seychelles re you and Russia
7. The actions of Carter Page, Paul Manafort and Roger Stone - and what they were doing with Russia

I'm confident that Mr Mueller will provide a satisfying, clarifying conclusion. Are your worried? You should be. I doubt if you're gonna be grabbing pussy much longer while on the government payroll (or are you on Putin's payroll?).

I'm going to enjoy watching this unfold. Now the public will learn how much a loser you actually are.

[*Russia is coming.]
