Re:Tax 'Plan'

Are you trying to bankrupt America? Any why do the 1% get a huge blessing? Trickle-down doesn't work, Donnie. Consumers need to spend money; we don't start buying because there's a new shiny toy in the store. Give the tax break to the middle-class - and watch the economy grow.

And then you give a tax break to hedge fund managers? Oh, right, they're your buddies. See you lied again: you said you'd 'drain the swamp'. Donnie, the swamp is rising and it stinks more than ever.
