

President Donald Trump  
The White House  
1600 Pennsylvania Ave  
Washington DC 20500

President Trump:

Re: Women's Issues

Your concern and treatment of women is appalling. Women should have full-control over their health and reproductive rights, including abortion. Support of Planned Parenthood is essential. Equal pay for women should be a standard item in your policies. Women now serve fully and responsibly in the military; they deserve equal respect and treatment.

It's an attitude, President Trump - and you have yet to demonstrate that you understand the issue of women's rights.
